AIDS Alliance for Children, Youth & Families

AIDS Alliance advances the partnership between consumers and providers — we are the voice of women, children, youth and families living with and affected by HIV and AIDS.

Ryan White CARE Act Part D (Title IV) Projects

Grants for Coordinated HIV/AIDS Services and Access
to Research for Children, Youth, Women, and Families

The Pediatric/Family AIDS Health Care Demonstration Program was first created by Congress in 1988, under general authority of the Public Health Service Act. In 1994, funding for these projects became part of Title IV of the Ryan White CARE Act. Administered by HIV/AIDS Bureau of the Health Resources and Services Administration (HRSA), U.S. Department of Health & Human Services, the program has the following goals: 1) foster the development and support of comprehensive care infrastructures, including primary care, that increase access to culturally-competant, family-centered, community-based, coordinated care; 2) emphasize prevention within the comprehensive care system in order to reduce the spread of the HIV infection to vulnerable populations; 3) link comprehensive systems of care with HIV/AIDS clinical research trials and other research activities, resulting in increased access for children, youth, women, and their families.

This Directory lists the lead and the affiliate organizations of the Ryan White Part D (Title IV) CARE Act Grantees throughout the U.S. The affiliate organizations are official subcontractors of the lead organizations. The Directory also includes Adolescent Projects and those that provide training and technical assistance on pediatric and family HIV/AIDS issues.

We gratefully acknowledge agencies and individuals who provided information about their organization. Please forward corrections to info@aims-alliance.org, subject: Part D (Title IV) Project Directory.
